
Replacement Sandvik Cone Crusher CH430 Dust Ring

Cone Crusher Dust Ring

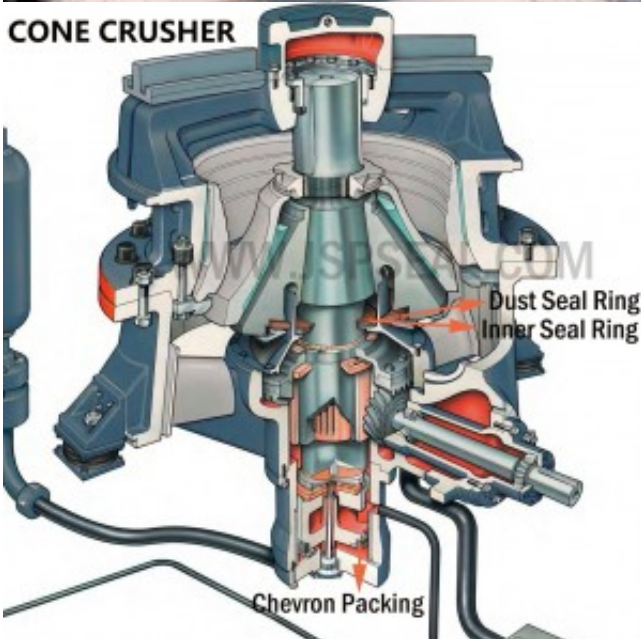

Cone Crusher

A Cone Crusher is one of the most widely used crushing equipment in crushing operations. The crushing equipment with convenient use, good performance, and high efficiency has done a lot of work. At present, hydraulic cone crushers are commonly used.

The Replacement of Parts of The Cone Crusher

The replacement of parts of the cone crusher is an inevitable problem that we will encounter. What are the wearing parts of the cone crusher? Including gear, bearing and sealing device, cylindrical bush, frame, spring, etc.

JSPSEAL Cone Crusher Seal Rings

JSPSEAL is a professional manufacturer of seals. Specializing in the production of hydraulic cylinder seals and other mechanical seals.

Since 2013, we have provided crusher companies with dust seals and inner seal rings for crushers. The JSPSEAL Cone Crusher Seal Rings are suitable for Metso, Sandvik, etc. JSPSEAL Cone Crusher Seal Ring outer diameter up to 1500mm.

Why choose JSPSEAL?

1. Experience. We have been selling in the aftermarket for nearly 20 years, we know more about what kind of seal kits the machine needs under bad work conditions.
2. The accuracy of the dimensions. The same part number as the OEM, easy to query and purchase.
3. Price. We can beat all OEM parts in value, while as stated above the quality of the parts will remain the same.

4. Lead Times. JSPSEAL products have been exported for more than 10 years, and our extensive export experience can help you solve various transportation problems. We can ensure fast and efficient lead times across all JSPSEAL Parts.
