## PU BUFFER RINGS

### Advantages:

- Due to its special construction, this transmits the pressure between the main and the buffer seal back to the system
- Interchangeable with ordinary PTFE buffer seals
- Used the backup ring to prevent extrusion and greatly improve its bearing capacity.
- Groove is simple, easy to install, can be used for closed grooves.
- Good wear resistance ensure long service life.
- Low compression-set.

### Why choose JSPSEAL seal ring?

- 1.Experience. We have been selling in the aftermarket for nearly 20 years, we know more about what kind of seal kits the machine needs under bad work conditions.
- 2.The accuracy of the dimensions.The same part number as the OEM, easy to query and purchase.
- 3.Price. We can beat all OEM parts in value, while as stated above the quality of the parts will remain the same.
- 4.Lead Times. JSPSEAL products have been exported for more than 10 years, and our extensive export experience can help you solve various transportation problems. We can ensure fast and efficient lead times across all JSPSEAL Parts.
